

Technical Data Sheet

Q 10-310 Parking Sensor Masking Discs

Characteristics:

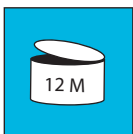

Q 10-310 Parking Sensor Masking Discs is the fast and sure way to save time masking integrated parking sensors and rubber seals. They are specially designed to mask parking sensors without the need for removal. Our adhesive cover protects the sensor throughout the repair process preventing damage from sanding, painting and polishing. This saves time and also reduces the risk of problems or malfunctions with the sensors afterwards.

Technical Data:

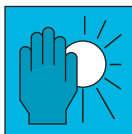

Values shown are typical values and not to be used for specification purposes.

Carrier	Polyester Film
Adhesive	High Temperature Silicone
Color	Green
Packaging	Sleeve of 60 discs, 20 discs per sheet
Adhesive Thickness	38 micron
Total disc thickness without liner	88 micron
Temperature	200°C
Diameter	18 mm

Temperature range	up to 200°C
Tensile Strength	8.8 kg/cm
Adhesion to steel	11 g/cm

Shelf life

Store in
dry and cool place
