MM9153 TRANSLUCENT MAROON TONER

DEBEER
REFINISH

COMPLEX FINISHES SIMPLIFIED

DeBeer closely follows automotive trends to ensure that refinishers are equipped with a range of products that can match even the most complex finishes.

Colour Detail

The WaterBase 900+ Series makes it easy for you to achieve a perfect colour match for both simple and complex finishes. With our Translucent Maroon Toner, we are adapting the Series to provide bodyshops with the ability to match a set of essential but challenging finishes.

It was developed in response to a number of vehicle manufacturers adopting deep and candy red finishes that are very translucent and high in chroma. We worked alongside our partners to quickly understand these finishes, using our experience in developing leading colour technology to provide more accurate colour matching.

Challenging OEM finishes

This toner can be used with a variety of red base colours, including metallics, to achieve true colour depth. The WaterBase 900+ Series Translucent Maroon Toner was developed to match OEM finishes, examples including:

- Mazda 46V Soul Red Crystal
- Toyota 3T5 Infrared Pearl
- Toyota 3T3 Red Pearl
- Honda R556P Iconic Red Pearl
- Mitsubishi P62 Red Metallic

The Translucent Maroon Toner can be used on other vehicle manufacturer cars that are candy red in colour.

How to order

DeBeer Refinish Translucent Maroon Toner is available now. The information you will need to order this product is summarised below.

Translucent Maroon Toner

Article no. 99153/1

Item no. MM9153

Contents 1 L

IMPROVED EFFICIENCY

PRECISE COLOUR MATCH AND A PREMIUM FINISH

4 Stage Process

The Translucent Maroon Toner is easy to use, with a straightforward 4 stage application process. While other systems require a second clear, use of the Translucent mid coat removes this unnecessary step. Simply apply the Translucent mid coat once the base coat has dried and finish off with a single clear stage.

WaterBase 900+ Series

1. Undercoat
2. Base coat
3. Translucent mid coat
4. Clear

TRANSLUCENT MAROON TONER APPLICATION PROCESS

! Ensure the repair area is prepared according to the Best Practice (If applicable).

1 Apply the required undercoat, tack-coat and full coat until covered.

2 Apply a 75% coat and a full coat with flash-off in between, until uniform.

3 Apply the Translucent mid coat. 2-3 layers depending on the required colour preferably in a crossing motion.

4 Apply a recommended clear coat suitable for the WaterBase 900+ Series.

DeBeer

A Valspar Automotive Brand
