3M™ Cubitron™ II Hookit™ Clean Sanding Sheet Roll 737U

3M™ Precision-Shaped Grain (PSG) abrasives, triangular-shaped grains that cut faster and last longer, now available in “sheet on roll” format.

Sheets are dispensed from a pre-cut roll, enabled by a unique “kiss cut” technology. This perforation allows multiple product lengths to be extracted from a single roll.

- ▶ Our unique kiss cut scoring technology makes it easy to select whatever sheet length is best for the project.
- ▶ Less part numbers to order; less packaging and less inventory.
- ▶ For best results, fold and then tear the perforations. The perforations are strong enough to remain intact during use, but can be torn cleanly using this method.
- ▶ 3M™ Hookit™ hook-and-loop style abrasive attaches firmly, but removes quickly for fast change-out.
- ▶ Sheets can be used on any Hookit™ block.
- ▶ Clean Sanding multi-hole pattern delivers excellent dust extraction.

3M™ Cubitron™ II Hookit™ Clean Sanding Sheet Roll 737U

Part No.	Size	Grade
51430	70 mm x 12 m	80+
